# RIVER FORECAST

## Cal OES INLAND REGION

### **River Forecast – The following rivers are expected to meet or exceed Flood Stage:**

#### Placer County:

- Truckee River at Truckee is forecast to **remain** at or above flood stage now through 04/16/18 and see flows between 4.5 feet and 4.6 feet. Flood stage is 4.5 feet.
  - Flood Stage. Minor flooding from Bear Creek in the Alpine Meadows area to Truckee. Truckee River bike path between the River Ranch at Alpine Meadows Road to Tahoe City begins to flood. Basements and yards of some low-lying homes along the river begin to flood. Deep Creek Campground begins to flood. About 2270 cfs. USGS estimates this much flow has about a 1 in 4 chance of being exceeded any year.

### **River Forecast – The following rivers are expected to meet or exceed Monitor Stage:**

#### Merced County:

- Merced River at Stevinson crested at 67.6 feet the **evening** of 04/11/18 and will continue to recede **the evening** of 04/12/18 to 67.5 feet . Flood stage is 71.0 feet.

- None reported.

# **WEATHER OF CONCERN**

## **Weather of Concern**

- Periods of heavy snow will be possible across the higher elevations of Northern California late today 04/12/18.
- Another fast-moving weather system will spread precipitation southward across the Northern California region today 4/12/18.
- Very strong northwest winds are expected to develop in the mountains of Southern California through this evening 04/12/18. The strongest winds will be on the Grapevine through the Interstate 5 Corridor and in the western Antelope Valley. Wind gusts between 60 to 70 MPH will be possible during this time.

- <http://www.wrh.noaa.gov/hazardSummary/?state=ca&bycounty=1>

# **WEATHER SYNOPSIS BY REGION**

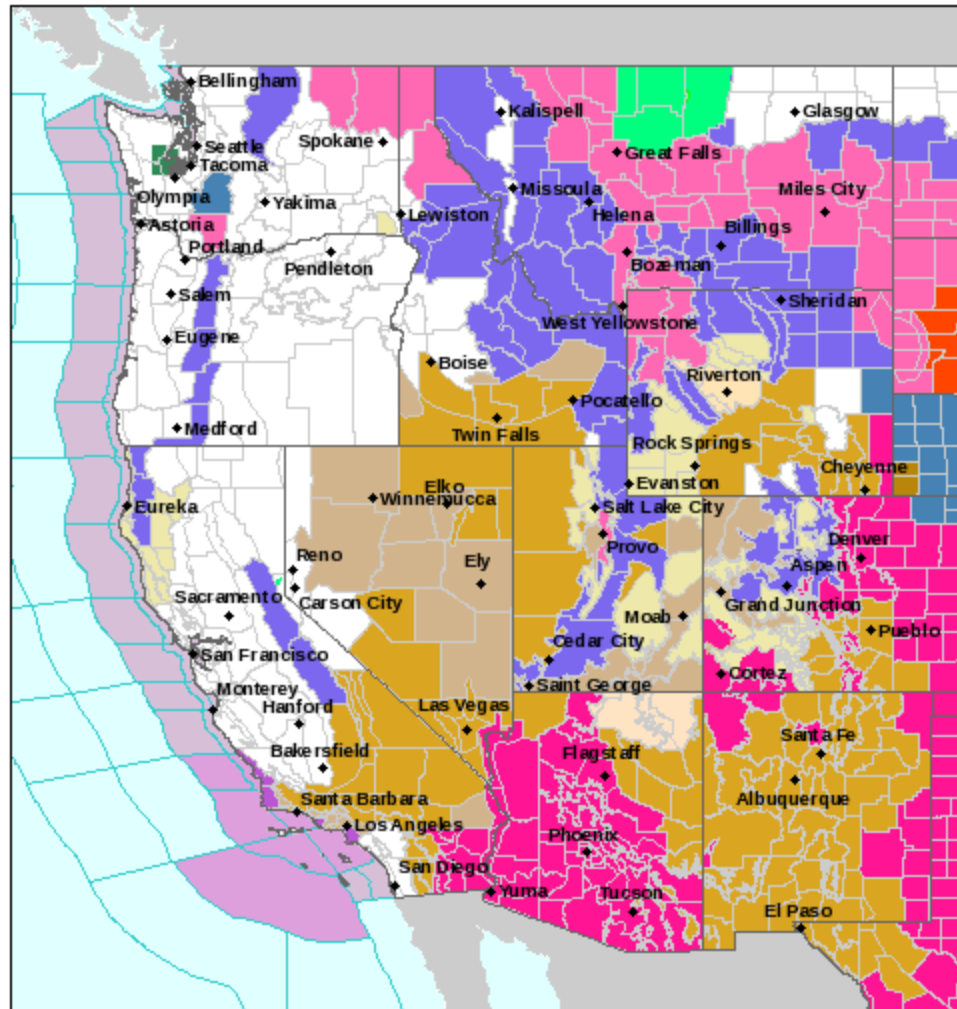

## **NORTHERN CALIFORNIA**

The next in a series of Pacific waves will swing over the area today. This wave will pack a little more of a punch compared to the previous. Expect 3,000 to 4,000 foot snow levels lasting into the evening. Today's wind speeds will be lower and generally W-SW. Humidity levels will generally be on the higher side although some 20s will be observed across the Far Eastside Predictive Services Areas. Atmospheric ridging will affect the area tomorrow and Saturday. This means drier and warmer conditions with a lighter wind flow.

## **SOUTHERN CALIFORNIA**

An approaching Pacific trough will bring much cooler temperatures to the region through today. Maximum temperatures will be mid 30s to mid 40s across the mountains and upper 50s and 60s in the valleys today. The snow level will be around 6,000 feet. Westerly winds of 20 to 40 mph with gusts to 60 mph will surface across the mountain ridges and desert passes through this afternoon. On the back side of this trough, there will be northerly winds of 20 to 40 mph with gusts to 60 mph across much of Santa Barbara County, the Grapevine, and the Owens Valley tonight. Significant warming along with minimum humidity in the single digits and teens will occur tomorrow and Saturday as a ridge of high pressure builds into California from the Pacific Ocean. Local northeast winds of 10 to 20 mph with gusts to 35 mph will surface over the mountains and below the canyons and passes of Southern California tomorrow morning through Saturday morning.

# Cal OES LAW ENFORCEMENT MISSIONS

## Cal OES Law Missions

- **2018-LAW-46158, 04/10/18, 1403 hours:** Mendocino County Sheriff's Office (MCSO) requesting a SAR mutual aid regarding a missing family of 4, whose vehicle is believed to have gone into the S. Fork of the Eel River, North of Legget, on 04/06/18. Southern Humboldt County Technical Rescue accepted the mission. Cal OES LDO facilitated a request to the California National Guard so they can do a feasibility analysis of the area to further assist in prepping for this mission, should they be able to support it as conditions become suitable for additional assets to search for the missing vehicle and family. **Mission Ongoing.**

# Cal OES MISSION TASKING

## Cal OES Missions

- **2018-IREOC-45244:** Caltrans to remove dead and dying trees along highways in Kern, Tulare, Fresno, Madera, Mariposa, Tuolumne, Calaveras, Butte, Plumas, Sierra, Shasta, and Lassen counties. (On Scene – Long-term assignment)
- **2017-SOC-44098:** CalRecycle Debris Management Team in Ventura County (Coordinating)
- **2017-SOC-43821:** DTSC to remove household hazardous waste from over 500 residential lots in Ventura County (On Scene)
- **2017-Inland-42559:** Weather station installed to gather real time rainfall data by Air Resources Control Board (On Scene)
